FORMAL COMPLAINT TO HOUSE OF LORDS COMMISSIONER FOR STANDARDS & PARLIAMENTARY COMMISSIONER FOR STANDARDS

Complainant: Paul Buckingham

FOR THE IMMEDIATE ATTENTION OF:

Office of the House of Lords Commissioners for Standards
Office of the Parliamentary Commissioner for Standards

RE; Complaint about Baroness Bennett of Manor Castle and the wider Green Party for abusing the House through introduction of the **Nature's Rights Bill**.

COMPLAINT SUMMARY

Due to the members of the House of Lords failing to immediately and outright reject the Nature's Rights Bill, allowing it to complete 2nd Reading and progress to Committee Stage, it is apparent that the House cannot be relied upon to take the actions required in dismissing the intentions of this Bill, which seeks to bastardise our nations legal system, and form de-facto dictatorial status.

The charges I make in this complaint, whilst limited to 'Bennett' for introducing this abomination, do also require additional investigation to the wider Green Party and all those responsible for its introduction, hence all persons involved with the 'Nature's Rights Charity' (Scotland: No. SCO45540), as well as the intended Parliamentary Sponsor, Adrian Ramsay MP, up to and including criminal charges.

The charges I make in this complaint pertain to violations of the Code of Conduct (Nolan Principles), as per the Code of Conduct for Members of the House of Lords, and more seriously, offences against the Democratic System of Government and also crimes against humanity.

VIOLATIONS

VIOLATION 1:
(a) Selflessness: holders of public office should act solely in terms of the public interest.

This 'Bill' is entirely selfish toward the 'Green Cult' and its Pagan worship of Nature, hence giving no consideration to obligations of the whole citizenry.

VIOLATION 2:
(b) Integrity: holders of public office must avoid placing themselves under any obligation to people or organisations that might try inappropriately to influence them in their work. They should not act or take decisions in order to gain financial or other material benefits for themselves, their family, or their friends. They must declare and resolve any interests and relationships.

The sponsor of this 'Bill' ('Bennett') has presented this to our House under the influence of the 'Nature's Rights Charity', headed by Mumta Ito and the various acolytes that can easily be identified through their website (https://www.natures-rights.org/uk-bill), who by default are seeking to gain power over the citizenry of this nation, and dominion of these lands due to specific statement of intent such as 'No Crown body, public authority or United Kingdom entity is exempt from 40 the rights and duties established under this Act solely on the grounds of national security, public interest, administrative convenience or economic hardship, except as expressly provided by or under this Act.'

They will furthermore seek financial benefit due to their intentions to award themselves with grants and loans, as per Part 3. Section 13 '*Incentives and regenerative transition support*'.

VIOLATION 3:
(c) Objectivity: holders of public office must act and take decisions impartially, fairly and on merit, using the best evidence and without discrimination or bias.

There is zero impartiality, and only total bias toward this 'Green Cult' ideology, which holds not a single consideration toward merit of any descripotion.

VIOLATION 4:
(d) Accountability: holders of public office are accountable to the public for their decisions and actions and must submit themselves to the scrutiny necessary to ensure this.

This 'Bill' seeks to completely remove all accountability from this 'Green Cult', placing all decision in the hands of three new dictatorial bodies, namely the Nature Guardianship Council, Bioregional Councils and the Nature's Rights Tribunal, who are conveniently then acting on behalf of 'Nature', for which they subsequently and conveniently render themselves immune, as per Part 5. Section 37 'Immunity of Nature and Nature Designated Entities'.

Such actions then give free reign for their fellow 'Green Cult' acolytes, who they conveniently fail to name, despite the website indicating numerous organisations (including foreign entities), to avoid any route to recourse to the sovereign people.

VIOLATION 5:
(e) Openness: holders of public office should act and take decisions in an open and transparent manner. Information should not be withheld from the public unless there are clear and lawful reasons for so doing.

It is only due to my own due diligence that I came to learn anything about this 'Bill', as I have become accustomed to this method from ideologues to 'hide in plain sight', and avoid the scrutiny of the sovereign people. In such instance as this attempt to steal sovereignty from the people, the violation here is based on the House itself and its complete lack of warning to the wider sovereign population.

VIOLATION 6:
(f) Honesty: holders of public office should be truthful.

Aside from this whole 'Green Cult' being based entirely on lies, I will specifically refer to Part 5. Section 34 '*Precautionary principle and burden of proof*', which stipulates '*The precautionary principle applies to the interpretation and application of this Act*', on account of this cult being completely and utterly devoid of any actual burden of proof, and the 'scientific method'.

This 'poor man's science' and 'Law of Fear (Sunstein 2005) is entirely based on pre-determined outcomes to promulgate falsehoods and manipulation of the academically illiterate. It is so void of burden of proof that it demands lowering public intellect in order to meet the truly evil intentions of this cult fantasy.

In the event of additional requirement, I maintain numerous FoI responses from the useful idiots of this fake science, whereby not a single one can answer questions of scientific method burden of proof, nor in fact do they even understand the questions relating to 'precautionary principle', due to their total incompetence in any academic field. Here I will be blunt, these people are morons.

VIOLATION 7:
(g) Leadership: holders of public office should exhibit these principles in their own behaviour and treat others with respect.

'Bannett', and her band of 'Green Cult' morons, may well be leading, in terms of the 'blind leading the blind', but they are wholly void of meeting the obligation within this principle due to their intentions of treating the sovereign people of this nation with utter contempt.

VIOLATION 8: Democratic System of Government

Otherwise known as 'Sedition'.

This 'Bill' seeks the dissolution of the democratic regime and poses a direct and immediate violation of the fundamental rights of the citizens of this United Kingdom.

As per Part 5. Section 26 'Parliamentary Oversight' this 'Bill' seeks to hold primacy over Government, most especially due to Part 2. Section 2. Granting 'Recognition of Nature as a legal subject', and hence handcuffing any decision external to this 'Green Cult' demands.

VIOLATION 9: Crime Against Humanity

As per Part 2. Section 4 'Integrated Rights Framework', sub-section (2), we can clearly identify that this 'Green Cult' intends to place 'Nature Rights' above 'Human Rights', for which this 'Green Cult' conveniently seeks to embody itself with the 'divine right' to speak on behalf of Nature via its useful idiot cult membership as per Part 4. Section 16 '*Composition and governance of the Nature Guardianship Council*', and hence endowing themselves with the powers to persecute sovereign citizens with whatever lunacy they determine to be a 'crime against Nature'.

REMEDY

These multiple violations are so severe that the highest possible actions are required.

It begins with the immediate prosecution of 'Bennett' for Gross Misconduct in Public Office, and expulsion from our House and prevention of association with any public office in the nation, as well as stripping of any and all title. I would expect the investigation stage to expand into any and all supporters of this act of Sedition.

Criminal prosecution would not be uncalled for, including imprisonment.

The investigation must then expand into the 'Green Cult' behind this crime against the sovereign people, and hence the entire Green Party, paying particular attention to Adrian Ramsay MP (reason for inclusion of the Parliamentary Commissioner for Standards), and all persons and bodies related to the Natures Rights Charity, as per the website previously stated. Pleas note the Environment Agency of the UK amongst their list of foreign and domestic collaborators.

The full extent of the law must be sought against these criminals that seek to steal domain of our nation, and relegate its citizenry to second class status.

I expect this complaint to be dealt with accordingly, as we clearly cannot count on the members of the House to act accordingly.
